

List of Figures

1.1	(a) An InvG; (b) Its interval representation	6
1.2	(a) An circular-arc graph; (b) Its circular arc representation	7
2.1	(a) An InvG; (b) Its interval representation	19
2.2	Illustration of hole of $L(2, 1)$ -labelling for InvG	25
3.1	(a) An circular-arc graph; (b) Its circular arc representation	30
3.2	Representation of the program slots of tables 3.1, 3.2 and 3.3 as circular arcs.	37
3.3	Representation of the program slots of tables 3.1, 3.2 and 3.3 as circular arcs.	37
4.1	An example of communication network consisting of cliques	44
4.2	An example of a fuzzy graph $\mathcal{Z} = (U, \mathcal{Q}, \mathcal{R})$	47
4.3	An IVFSG which is fuzzy clique but not complete	48
4.4	An example of a complete IVFQ of the graph of Figure 4.2	49
4.5	An IVFG $\mathcal{Z} = (U, \mathcal{Q}, \mathcal{R})$	54
4.6	Example of complete IVFQ edge cover of \mathcal{Z} shown in Figure 4.5	55
4.7	An IVFG model of a mobile communication	56
5.1	Contribution chart	61
5.2	Some small food webs	70
5.3	Weighted food web	71
6.1	3PFG G	78
6.2	FEC corresponding to the Fig. 6.1	78
6.3	3PFG G	79
6.4	FEC corresponding to the Fig. 6.3	80
6.5	Line graph $L(G)$ corresponding to the Fig. 6.3	80
6.6	Fuzzy vertex coloring corresponding to the Fig. 6.5	81
6.7	3PFG G	83
6.8	3PFG G	83
6.9	3PFG G	85
6.10	FEC corresponding to the m PFG shown in Fig. 6.9	85
6.11	Model job oriented web sites deign for faculty requirement problem	88
6.12	m PF subhraph of the Fig. 6.11	89

6.13 Colored 3PFG of Fig. 6.12	89
6.14 m PF subhraph of the Fig. 6.11	90
