

Botany (P.G.)

[CBCS]

M.Sc. First Semester End Examination-2023

(Regular & Supplementary Paper)

PAPER- 103

[Mycology and Plant Pathology]

Full Marks: 40

Time: 02 Hrs

The figures in the right-hand margin indicate marks.

Candidates are required to give their answers in their own words as far as practicable.

Illustrate the answers wherever necessary.

Unit-1

Full Marks 20

[Mycology]

Group A

- 1. Answer any four questions of the following: 1x4= 4**
- Compare eucarpic & holocarpic fungi with example.
 - Which fungal organism contributed to both ethanol generation and baking process?
 - What is homothallic fungi?
 - What makes the cell wall of oomycota (Oomycetes) unique?
 - What do you understand by pseudoparenchyma in fungi?
 - Give example of a poisonous fungi.
-

(2)

Group B

2. Answer any two questions of the following: $2 \times 4 = 8$
- a. Write a general account on mycotoxins with reference to aflatoxins. $2+2$
- b. Explain different types of sexual and asexual spore in Fungi. $2+2$
- c. Write a short note on
- i) Role of fungi in Agriculture
- ii) Parasexuality in fungi $2+2$
- d. What are the different thallus structures found in fungi?

Group C

3. Answer any one question of the following: $1 \times 8 = 8$
- a. Explain with the help of diagram, the development of ascocarp in Ascomycotina. Mention different types of ascocarps in Ascomycotina. $4+4$
- b. Discuss any modern system of classification of fungi. Give characters of each phylum.

Unit - 2

Full Marks 20

[Plant Pathology]

Group A

1. Answer any four questions of the following: $1 \times 4 = 4$
- a. Distinguish between smut & rust disease.
- b. Define explosive epidemic?

(3)

- c. Mention the name of causal organism of "Downy mildew of sunflower" disease.
- d. What is SAR?
- e. Explain 'Disease triangle'?
- f. Differentiate between fungistat & fungicide.

Group B

2. Answer any two questions of the following: $2 \times 4 = 8$
- a. Write about the different prophylactic methods of plant disease control. 4
- b. What are macerating principle? Explain it to the role of disease development. 4
- c. Write a short note on
- a) Exclusion method in disease control.
- b) Disease Forecasting $2+2$
- d. Discuss different stages of "Host Pathogen" Interaction?

Group C

3. Answer any one question of the following: $1 \times 8 = 8$
- a. Describe with diagram about symptoms of disease cycle, control measure and name of causal organism of 'wilt of Pigeon Pea' disease? Who is responsible of "Crown Gall" disease of plants? $1+2+2+2+1$
- b. Discuss the different types of direct and indirect transmission of plant pathogen. Write about the disease cycle and control measures of Blight disease of Rice.
